Sales (gross receipts)	3,214,800	686,200	385,400	4,286,400	75.0000

OREGON APPORTIONMENT AND TAX BASE

Line	Description	Amount
1	Apportionment method (ORS 314.650 — single sales factor)	Sales only
2	Oregon sales factor (line 3 of the schedule above)	75.0000 %
3	Federal ordinary business income (Form 1120-S, line 21)	606,400
4	Oregon additions	0
5	Oregon subtractions	0
6	Income subject to apportionment (line 3 plus line 4 less line 5)	606,400
7	Oregon apportioned income (line 6 × line 2)	454,800

NOTES

- Property factor is stated at original cost of real and tangible personal property owned and used during the year, per the fixed asset and depreciation schedule.
- Payroll factor is total compensation paid to employees, agreeing to salaries and wages plus officer compensation on the profit and loss statement.
- Sales factor is gross receipts assigned to the state of delivery. Oregon apportions business income on the sales factor alone; the property and payroll factors are computed for reference and for states that require a three-factor formula.
- Washington imposes a business and occupation tax on gross receipts rather than a net income tax; the Washington column is presented for gross receipts reporting only.
